Subject index

Acetonitrile
Polarographic study of the interaction between heavy metal ions and some macrocyclic ligands in binary acetonitrile + water mixtures (Parham, Shamsipur) 71
Acid solution
An electrochemical and optical microscopic study of the reduction of $HTeO_2^+$ in aqueous acid solution (Dennison, Webster) 207
Anion exchanging clays
Oxometallate clay modified electrodes: pillaring of layered double hydroxide anion exchanging clays by metatungstate (Keita et al.) 345
Anodic behaviour
The anodic behaviour of mercury in the presence of 5-fluorouracil An electroanalytical study (Guerrieri et al.) 117

Bipyridine
Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165

Cadmium
Study of solvent effects on the kinetics of the Cd(II)/Cd(Hg) reaction (Brisard, Lasia) 103
Carbon electrodes
Interpretation of the electrochemistry of cytochrome *c* at macro and micro sized carbon electrodes using a microscopic model based on a partially blocked surface (Büchi, Bond) 191
Carbon monoxide
Study of UV–visible potential-modulated reflectance spectroscopy and cyclic voltammetry of the electroadsorption and electrooxidation of CO on Au in alkaline media (Caram, Gutiérrez) 259
Catalysis
Electrodeposition of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatlaytic reduction of dioxygen (Dong, Qiu) 223
Novel phenomena of lead deposition on a glassy carbon electrode and its catalysis reduction of oxygen (Dong, Qiu) 331
Thin films of Co_3O_4 and $NiCo_2O_4$ prepared by the method of chemical spray pyrolysis for electrocatalysis. Part IV. The electrocatalysis of oxygen reduction (Singh et al.) 241
Charge transport
Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos), 135
Chronoamperometry
Chronoamperometric current at a random ensemble of microdisk electrodes (Szabo, Zwanzig) 307
Clay modified electrodes
Oxometallate clay modified electrodes: pillaring of layered double hydroxide anion exchanging clays by metatungstate (Keita et al.) 345
Cobalt
Thin films of Co_3O_4 and $NiCo_2O_4$ prepared by the method of chemical spray pyrolysis for electrocatalysis. Part IV. The electrocatalysis of oxygen reduction (Singh et al.) 241
Copper
EXAFS solid-state spectroelectrochemistry: effects of supporting electrolyte on the electrochemical and structural behavior of $Cu(bcp\text{-}s)_2^{3-}$ (Igo et al.) 45

Cyclic voltammetry
Study of UV–visible potential-modulated reflectance spectroscopy and cyclic voltammetry of the electroadsorption and electrooxidation of CO on Au in alkaline media (Caram, Gutiérrez) 259
Temperature dependent cyclic voltammetry of oxo-bridged dimers of relevance to photosynthesis water oxidation 335
Cytochrome *c*
Interpretation of the electrochemistry of cytochrome *c* at macro and micro sized carbon electrodes using a microscopic model based on a partially blocked surface (Büchi, Bond) 191
Reduction of horse heart ferricytochrome *c* at platinum and gold electrodes modified by various ad-atoms (Shibata et al.) 179

Deposition
Electrodeposition of platinum particles on glassy carbon modified with cobalt prophyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223
Dichloroethane
Electron transfer between bis-(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153
Diffusion
A transformation for the treatment of diffusion and migration. Application to stationary disk and hemisphere electrodes (Baker et al.) 23
Digital simulation
A fast implicit finite difference algorithm for the digital simulation of electrochemical processes (Rudolph) 13
Diphthalocyanine
Electrochromic properties of electrodeposited lutetium diphthalocyanine thin films (Moore, Guarr) 313

Electrochromicity
Electrochromic proeprties of electrodeposited lutetium diphthalocyanine thin films (Moore, Guarr) 313
Electron transfer
Electron transfer between bis(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schifrin) 153
Ethanolamine
Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165
EXAFS
EXAFS solid-state spectroelectrochemistry: effects of supporting electrolyte on the electrochemical and structural behavior of $Cu(bcp\text{-}s)_2^{3-}$ (Igo et al.) 45

Finite difference algorithm
A fast implicit finite difference algorithm for the digital simulation of electrochemical processes (Rudolph) 13
Fractal surfaces
The Monte Carlo simultaion of the voltammetry at fractal surfaces (Zalis et al.) 1
Fullerenes
Electrochemical reduction of fullerenes in the presence of O_2 and H_2O: polyoxygen adducts and fragmentation of the C60 framework (Karlsbeck, Thorp) 359

Glassy carbon
Electrodespotion of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223
Novel phenomena of lead deposition on a glassy carbon electrode and its catalysis reduction of oxygen (Dong, Qui) 331
Glucose oxidase
Scanning tunneling microscopy of polypyrrole glucose oxidase electrodes (Yaniv et al.) 353
Gold
Reduction of horse heart ferricytochrome *c* at platinum and gold electrodes modified by various ad-atoms (Shibata et al.) 179
Study of UV–visible potential-modulated reflectance spectroscopy and cyclic voltammetry of the electroadsorption and electrooxidation of CO on Au in alkaline media (Caram, Gutiérrez) 259

Heavy metal ions
Polarographic study of the interaction between heavy metal ions and some macrocyclic ligands in binary acetonitrile + water mixtures (Parham, Shamsipur) 71

Hemin
Electrochemical behaviour of hemin and PEO-hemin in ionconductive polymer matrices (Shi, Ohno) 59
Hemisphere electrodes
A transformation for the treatment of diffusion and migration. Application to stationary disk and hemisphere electrodes (Baker et al.) 23
Hexacyanoferrate
Electron transfer between bis(pyridine)-*meso*-tetraphenylprophyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153
Hydrogel
Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165
Hydrogen
Electrosorption of hydrogen and sulfuric acid anions on single crystal platinum stepped surfaces. Part II. The [1$\bar{1}$0] zone (Markovic et al.) 289

Ion-conductive polymer matrices
Electrochemical behaviour of hemin and PEO-hemin in ionconductive polymer matrices (Shi, Ohno) 59
Intercalation
A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81
Iron
Electron transfer between bis(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153

Kinetics
A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81
Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos) 135
Study of solvent effects on the kinetics of the Cd(II)/Cd(Hg) reaction (Brisard, Lasia) 103

Lead
Novel phenomena of lead deposition on a glassy carbon electrode and its catalysis reduction of oxygen (Dong, Qui) 331
Photoelectrochemical epitaxial growth of β-PbO_2 on TiO_2 single crystal electrodes (Matsumoto et al.) 323
Lipid membranes
In-situ studies on the adsorption behaviour of odorants at lipid membranes and the membrane potential response (Ye et al.) 279
Lithium
A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81
Lutetium
Electrochromic properties of electrodeposited lutetium diphthalocyanine thin films (Moore, Guarr) 313

Macrocyclic ligands
Polarographic study of the interaction between heavy metal ions and some macrocyclic ligands in binary acetonitrile + water mixtures (Parham, Shamsipur) 71
Mercury
Study of solvent effects on the kinetics of the Cd(II)/Cd(Hg) reaction (Brisard, Lasia) 103
The anodic behaviour of mercury in the presence of 5-fluorouracil. An electroanalytical study (Guerrieri et al.) 117
Microdisk electrodes
Chronoamperometric current at a random ensemble of microdisk electrodes (Szabo, Zwanzig) 307
Migration
A transformation for the treatment of diffusion and migration. Application to stationary disk and hemisphere electrodes (Baker et al.) 23
Modified electrodes
Electrodeposition of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223

Reduction of horse heart ferricytochrome *c* at platinum and gold electrodes modified by various ad-atoms (Shibata et al.) 179

Monte Carlo simulation

The Monte Carlo simulation of the voltammetry at fractal surfaces (Zalis et al.) 1

Nafion

Electrodeposition of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223

Nickel

Thin films of Co_3O_4 and $NiCo_2O_4$ prepared by the method of chemical spray pyrolysis for electrocatalysis. Part IV. The electrocatalysis of oxygen reduction (Singh et al.) 241

Odorants

In-situ studies on the adsorption behaviour of odorants at lipid membranes and the membrane potential response (Ye et al.) 279

Osmium

Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos) 135

Oxo bridged dimers

Temperature dependent cyclic voltammetry of oxo bridged dimers of relevance to photosynthesis water oxidation (Kalsbeck et al.) 335

Oxometallates

Oxometallate clay modified electrodes: pillaring of layered double hydroxide anion exchanging clays by metatungstate 345

Oxygen

Electrochemical reduction of fullerenes in the presence of O_2 and H_2O: polyoxygen adducts and fragmentation of the C_{60} framework, Kalsbeck, Thorp 359

Electrodeposition of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223

Novel phenomena of lead deposition on a glassy carbon electrode and its catalysis reduction of oxygen (Dong, Qiu) 331

Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165

Thin films of Co_3O_4 and $NiCo_2O_4$ prepared by the method of chemical spray pyrolysis for electrocatalysis. Part IV. The electrocatalysis of oxygen reduction (Singh et al.) 241

PEO-hemin

Electrochemical behaviour of hemin and PEO-hemin in ion-conductive polymer matrices (Shi, Ohno) 59

Phenanthroline

EXAFS solid-state spectroelectrochemistry: effects of supporting electrolyte on the electrochemical and structural behavior of $Cu(bcp\text{-}s)_2^{3-}$ (Igo et al.) 45

Photocurrent

Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165

Photosynthesis

Temperature dependent cyclic voltammetry of oxo bridged dimers of relevance to photosynthesis water oxidation (Kalsbeck et al.) 335

Pillaring

Oxometallate clay modified electrodes: pillaring of layered double hydroxide anion exchanging clays by metatungstate (Keita et al.) 345

Platinum

Electrodeposition of platinum particles on glassy carbon modified with cobalt porphyrin and Nafion film and their electrocatalytic reduction of dioxygen (Dong, Qiu) 223

Electrosorption of hydrogen and sulfuric acid anions on single crystal platinum stepped surfaces. Part II. The [1$\bar{1}$0] zone (Marković et al.) 289

Reduction of horse heart ferricytochrome *c* at platinum and gold electrodes modified by various ad-atoms (Shibata et al) 179

Polyoxygen adducts

Electrochemical reduction of fullerenes in the presence of O_2 and H_2O: polyoxygen adducts and fragmentation of the C_{60} framework (Kalsbeck, Thorp) 359

Porphyrin

Electron transfer between bis(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and

ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153

Propylene carbonate
A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81

Pyridine
Electron transfer between bis(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153
Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos) 135

Pyrolysis
Thin films of Co_3O_4 and $NiCo_2O_4$ prepared by the method of chemical spray pyrolysis for electrocatalysis Part IV. The electrocatalysis of oxygen reduction (Singh et al.) 241

Pyrrole
Scanning tunneling microscopy of polypyrrole glucose oxidase electrodes (Yaniv et al.) 353

Reflectance spectroscopy
Study of UV–visible potential-modulated reflectance spectroscopy and cyclic voltammetry of the electroadsorption and electrooxidation of CO on Au in alkaline media (Caram, Gutiérrez) 259

Ruthenium
Electron transfer between bis(pyridine)-*meso*-tetraphenylporphyrinato iron(II) and ruthenium(III) and the hexacyanoferrate couple at the 1,2-dichloroethane/water interface (Cheng, Schiffrin) 153
Photocurrent derived from $[Ru(bpy)_3]^{2+}$, oxygen and triethanolamine in a hydrogel matrix (Edwards, Rillema) 165

Site loading
Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos) 135

Solvent effects
Study of solvent effects on the kinetics of the Cd(II)/Cd(Hg) reaction (Brisard, Lasia) 103

Sorption
Electrosorption of hydrogen and sulfuric acid anions on single crystal platinum stepped surfaces Part II. The [110] zone (Marković et al.) 289

Spectroelectrochemistry
EXAFS solid-state spectroelectrochemistry: effects of supporting electrolyte on the electrochemical and structural behavior of $Cu(bcp\text{-}s)_2^{3-}$ (Igo et al.) 45

Stationary disk electrodes
A transformation for the treatment of diffusion and migration. Application to stationary disk and hemisphere electrodes (Baker et al.) 23

Stepped surfaces
Electrosorption of hydrogen and sulfuric acid anions on single crystal platinum stepped surfaces Part II. The [$1\bar{1}0$] zone (Marković et al.) 289

STM
Scanning tunneling microscopy of polypyrrole glucose oxidase electrodes (Yaniv et al.) 353

Structure
A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81

Sulphuric acid
Electrosorption of hydrogen and sulfuric acid anions on single crystal platinum stepped surfaces. Part II. The [$1\bar{1}0$] zone (Marković et al.) 289
Redox site loading, electrolyte concentration and temperature effects on charge transport and electrode kinetics of electrodes modified with osmium containing poly(4-vinylpyridine) films in sulphuric acid (Forster, Vos) 135

Tellurium
An electrochemical and optical microscopic study of the reduction of $HTeO_2^+$ in aqueous acid solution (Dennison, Webster) 207

Thermodynamics
A thermodynamic, structural and kinetic study of the electrochemical lithium interca-

lation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81

Titanium

Photoelectrochemical epitaxial growth of β-PbO_2 on TiO_2 single crystal electrodes (Matsumoto et al.) 323

Tungsten

Oxometallate clay modified electrodes: pillaring of layered double hydroxide anion exchanging clays by metatungstate (Keita et al.) 345

Uracil

The anodic behaviour of mercury in the presence of 5-fluorouracil. An electroanalytical study (Guerrieri et al.) 117

UV–visible spectroscopy

Study of UV–visible potential-modulated reflectance spectroscopy and cyclic voltammetry of the electroadsorption and electrooxidation of CO on Au in alkaline media (Caram, Gutiérrez) 259

Vanadium

A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81

Water

Electrochemical reduction of fullerenes in the presence of O_2 and H_2O: polyoxygen adducts and fragmentation of the C_6O framework (Kalsbeck et al.) 359

Polarographic study of the interaction between heavy metal ions and some macrocyclic ligands in binary acetonitrile + water mixtures (Parham, Shamsipur) 71

Xerogel

A thermodynamic, structural and kinetic study of the electrochemical lithium intercalation into the xerogel $V_2O_5 \cdot 1.6\ H_2O$ in a propylene carbonate solution (Baddour et al.) 81
